

OnviSource Customer Communication

Subject: Leap Year Fix

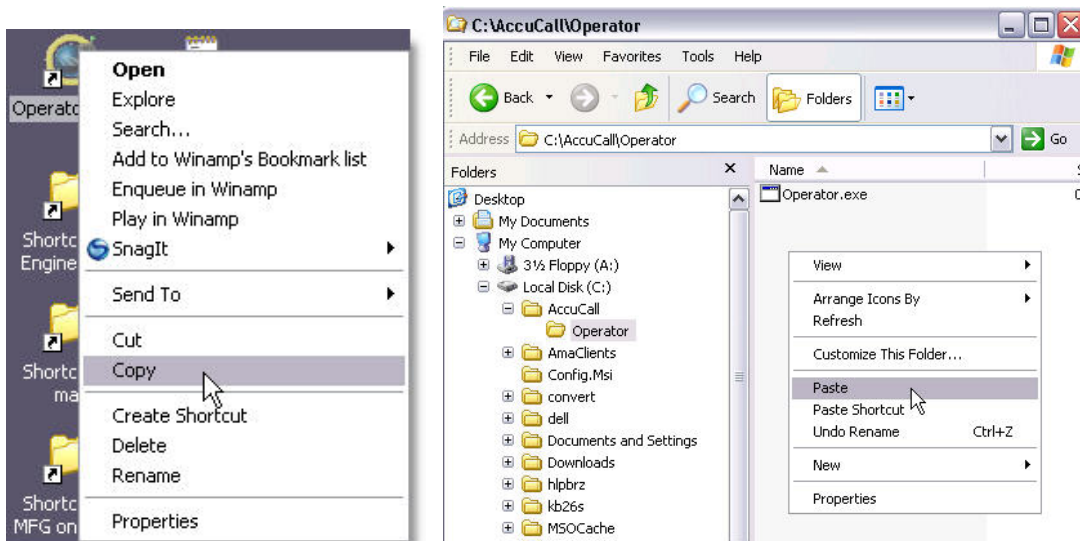

Product Version: 2.2.X

Follow the following steps to apply the Leap Year fix:

- 1.) Go to: <http://www.onvisource.com/LeapYear/Leapyear.php>
- 2.) Download the new manager.exe and operator.exe to the **Desktop** of the OnviSource **Data Server**.
- 3.) Go to **Start, Run**, and type **Explorer**. From the Window on the left, browse to **C:\AccuCall\Operator** and locate the **operator.exe** rename this to **operator.old**

- 4.) Go to the **desktop** and **right click** on the **operator.exe** that you downloaded previously, and click **Copy**.
- 5.) In the directory c:\AccuCall\Operator **right click** and "**paste**" the new executable.

Manager

- 1.) Go to **Start, Run**, and type **Explorer**. From the Window on the left, browse to **C:\AccuCall\Manager** and locate the **manager.exe** this to **manager.old**
- 2.) Go to the workstation **desktop** and **right click** on the **manager.exe** that you downloaded previously, and click **Copy**.
- 3.) In the directory **c:\AccuCall\Manager** **right click** and “**paste**” the new executable.
- 4.) Have operators log out and log back in.
